

# CREDIT CARD PROCESSING

## Smart Business

### Less Paperwork Equals Lower Cost

Time consuming, repetitive office processes are now exponentially faster. What used to take 15 minutes now takes 15 seconds! Cuts costs dramatically! Time is money!

### Fully Automated

Save time, labor, input errors, seemingly endless return phone calls, and office costs, while improving employee productivity. Transaction information is also available for downloading.

### Increased Revenue

Customers appreciate fast and convenient payment systems. With recurring payments, businesses can establish predictable cash flow and start increasing revenue today! This business investment sees immediate success!

- Convenient
- Safe & Secure
- Instant Verification
- Cost Efficient
- Time-Saving

## Powerful Payment Solution

Enterprising businesses have already realized significant increases in the number of payments processed by automating all points of credit card transactions. With an Internet connection, businesses can transmit credit card payments using state-of-the-art encryption technology. PDC4U online software delivers quality and quantity!
